

Tanzanian Myxomycetes: first survey (addition)

MARJA HÄRKÖNEN and TIINA SAARIMÄKI

HÄRKÖNEN, M. & SAARIMÄKI, T. 1992: Tanzanian Myxomycetes: first survey (addition). — *Karstenia* 32:6.

A list of collecting localities is added to the article published in *Karstenia* 31:31–54, 1991.

Marja Härkönen & Tiina Saarimäki, Department of Botany, University of Helsinki, Unioninkatu 44, SF-00170 Helsinki, Finland

Collecting localities

In our article on Tanzanian Myxomycetes (Härkönen & Saarimäki 1991) there is a map (no. 2) of collecting localities with numbers 1–29. These numbers refer to the places where Myxomycetes and Basidiomycetes were collected during our three excursions. A list of the localities was, however, lacking in the legend. Only those collecting localities where Myxomycetes were found are listed below.

The capital letter and number, e.g. T2, refer to the geographical subdivision of Tanzania (Polhill 1988). Degree Reference System Square, e.g. 03 36 BC, which has been developed for mapping the distribution of taxa in Southern Africa (Leistner & Morris 1976), is given for each collecting locality.

2. T2, Arusha (Northern) Region, Arusha District, W slope of Mt. Meru, Olmotonyi, cultivated and natural montane forests, alt. 1 830–3 250 m, Degree Ref. System Square: 03 36 BC

3. T2, Arusha (Northern) Region, Arusha District, E slope and caldera of Mt. Meru, in and outside Arusha National Park, alt. 2 000–2 600 m, Degree Ref. System Square: 03 36 BD

11. T3, Tanga Region, Lushoto District, West Usambara Mts., Mazumbai, submontane transitional, lower montane, and upper montane forests, alt. 1 470–1 900 m, Degree Ref. System Square: 04 38 DC

12. T3, Tanga Region, Lushoto District, West Usambara Mts., N of Lushoto, in and outside Shume–Magamba Forest

Reserve, secondary and closed lower montane forests, alt. 1 800–1 900 m, Degree Ref. System Square: 04 38 CB

13. T3, Tanga Region, Lushoto District, West Usambara Mts., along the road Mwenge–Bumbuli, by a brook, Degree Ref. System Square: 04 38 CD

18. T3, Tanga Region, Lushoto District, East Usambara Mts., Amani, surroundings of Amani Medical Research Center and submontane rain forest in and outside Amani Forest Reserve, alt. 500–950 m, Degree Ref. System Square: 05 38 BA

27. T6, Pwani (Eastern) Region, Morogoro District, North Uluguru Mts., Kimboza Forest Reserve, lowland rain forest, alt. 200–250 m, Degree Ref. System Square: 07 37 BB

29. T3, Tanga Region, Parc District, South Pare Mts., surroundings of Mbaga Manka and Mpepera, moist lower montane and upper montane forests, *Acacia* plantations and crop fields, alt. 1 350–1 900 m, Degree Ref. System Square: 04 37 BB
